SAMSKAPA

A CO-PRODUCTION RESEARCH PROGRAM

FORTE programme grant 2019-2024

FORTE:

Swedish Research Council for
Health, Working Life and Welfare

KING'S
College
LONDON

JÖNKÖPING ACADEMY
For Improvement of Health and Welfare

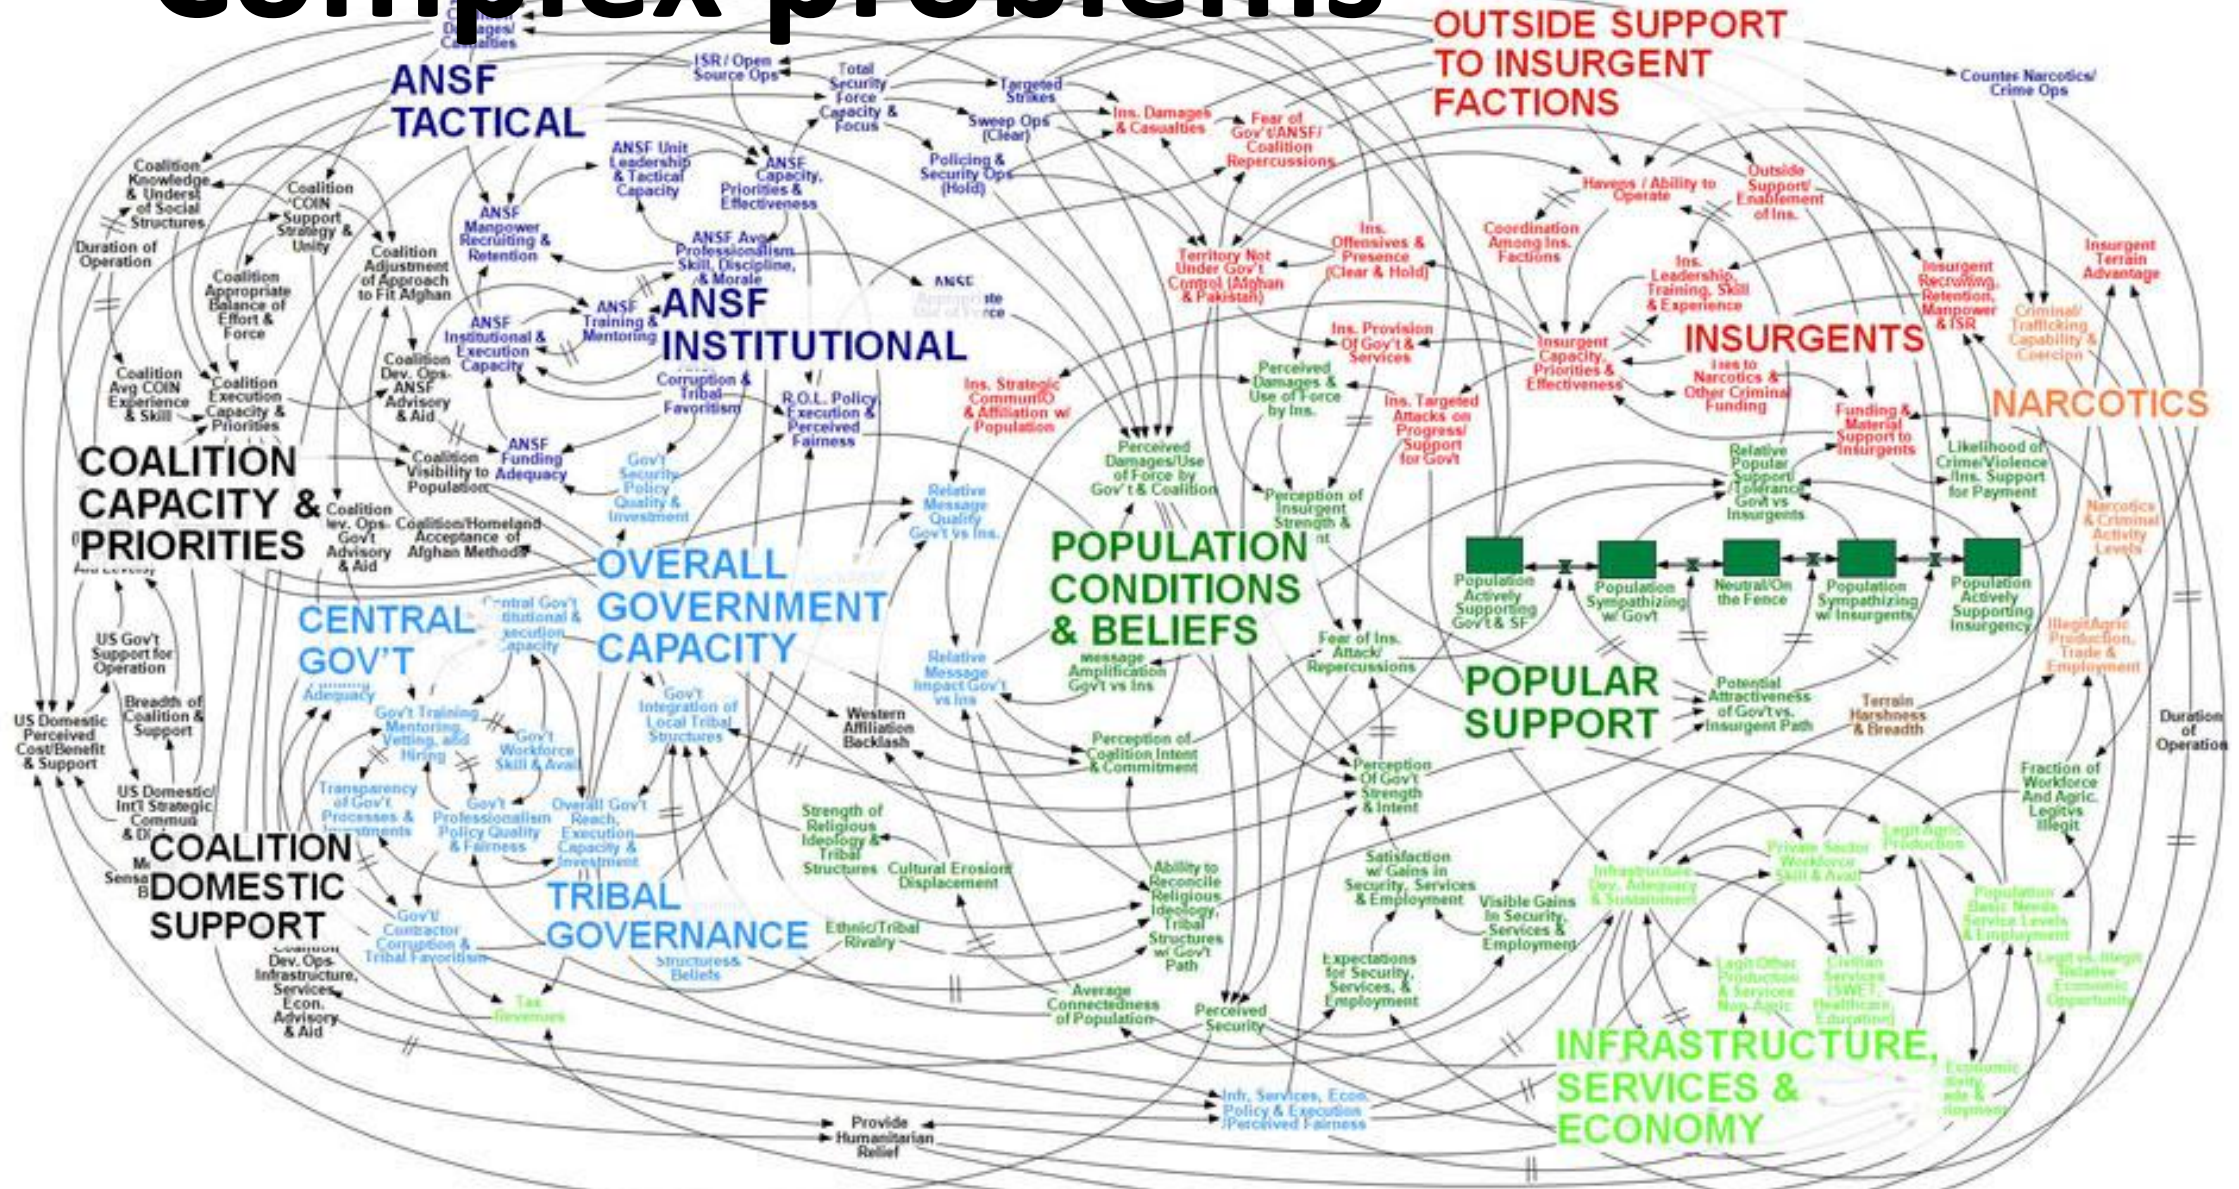

JÖNKÖPING UNIVERSITY

Co-producing quality improvement

A workshop on creating a conducive environment for engagement

Complex problems

Co-production is
a process based
on shared power
and shared
perspectives

Co-production

Samskapande är en process baserad på
delad makt och delade perspektiv

Self-dialysis
(självdialys)

PARADIGM SHIFT

Create health and welfare together with citizens

Instead of creating care for citizens

Aims of the workshop

To gain **more knowledge** about the importance of leadership to co-produce better quality in health- and social care

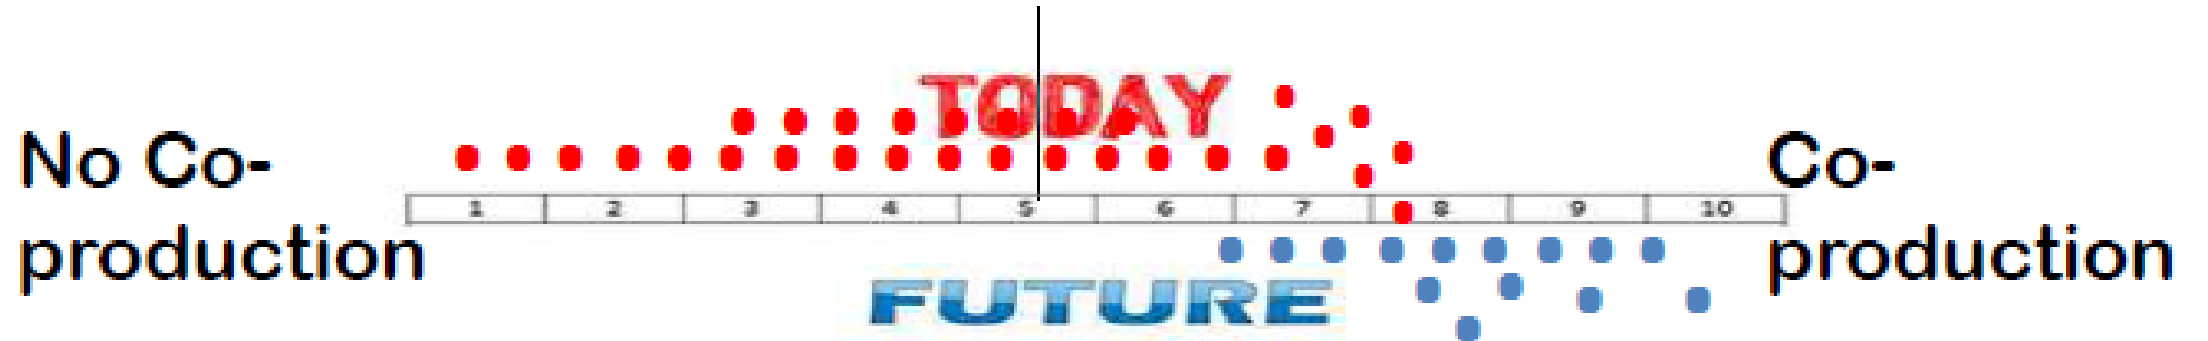

(Målet är att få mer kunskap om ledarskapets betydelse för att samskapa bättre kvalitet i vård och omsorg).

To gain more **energy** to take on the leadership challenge of co-production

(Att få mer energi att ta sig an ledarskapsutmaningen med samproduktion).

In your work (research, practice) today, how much do you use coproduction?

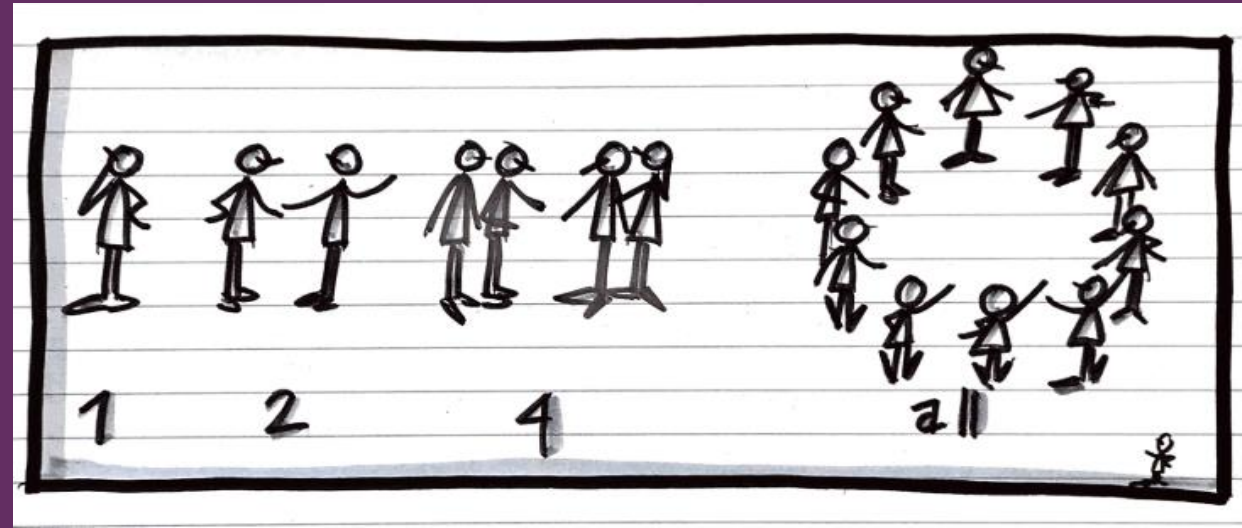

And prefer to use it in the future?

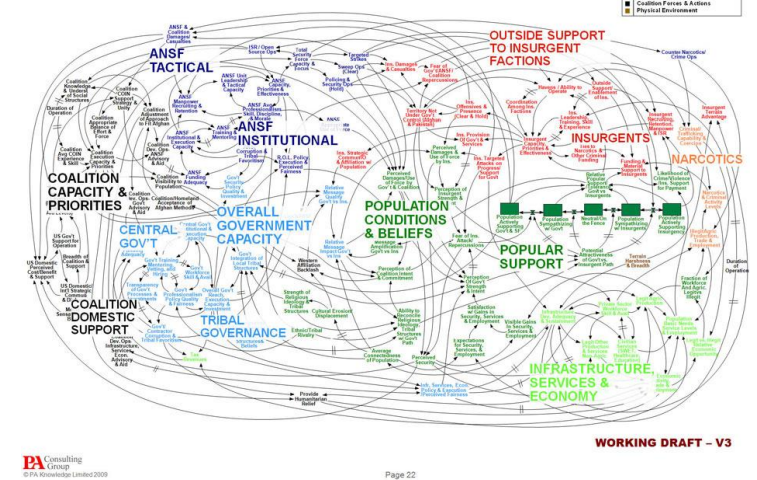

Leadership is central for co-production

- ❑ Previous research suggest that engaged leaders are needed for taking the steps into the co-produced future.
- ❑ But what what kind of leaders? And what do they need to know and do?

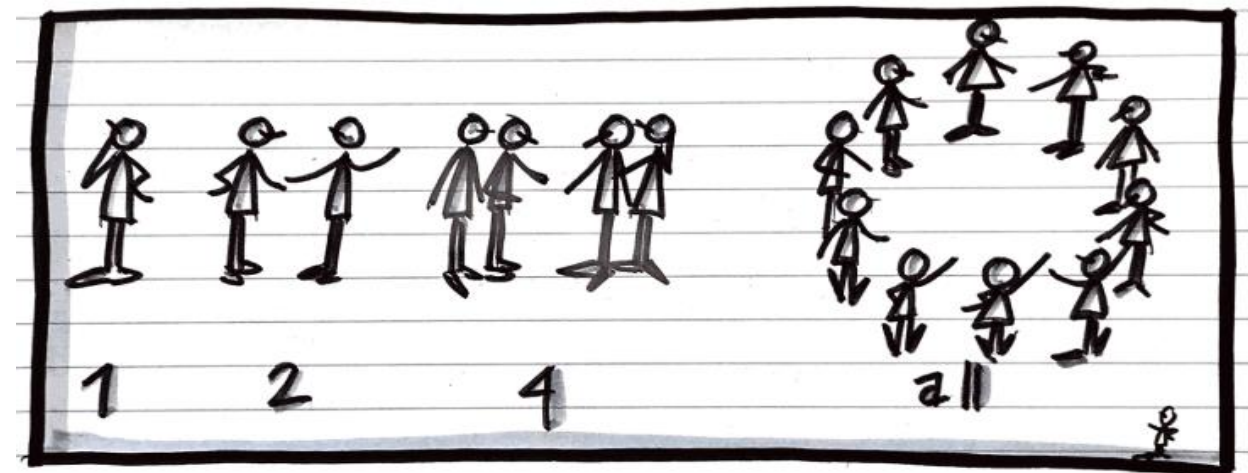

1-2-4-all

A method to engage and generate questions, suggestions and ideas

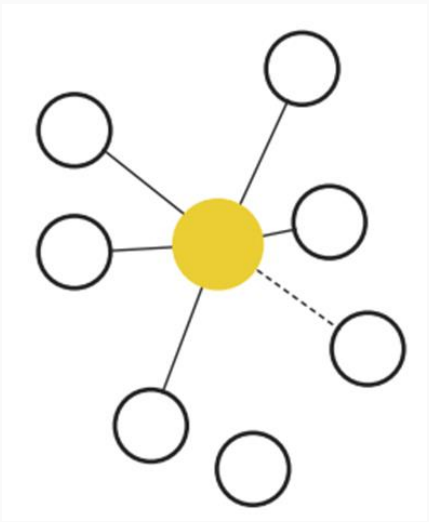

✓ Who are the leaders for coproduction?

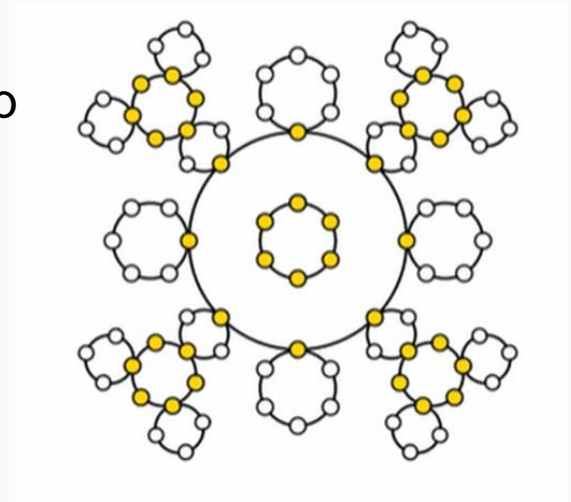

Leader-centric

- individual leadership
- strong leadership
- characteristics

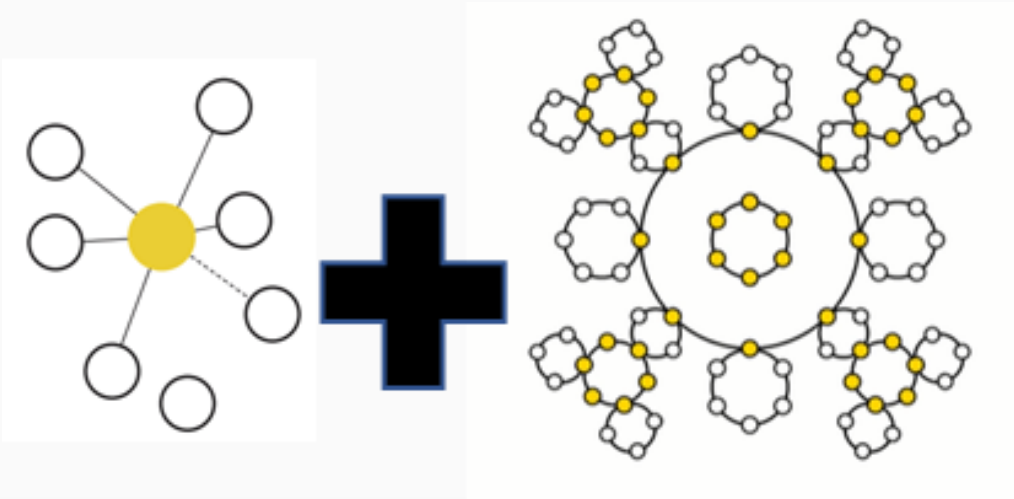

Collective

- emergent in group
- diffuse

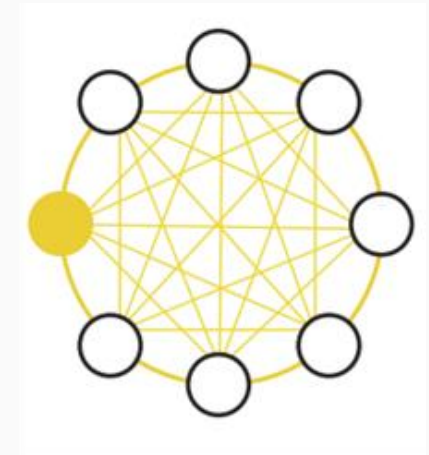

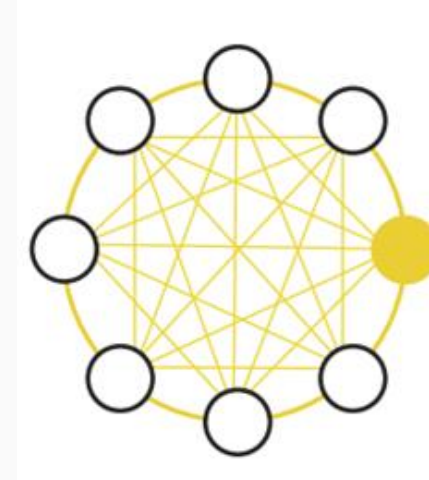

Hybrid

- ...

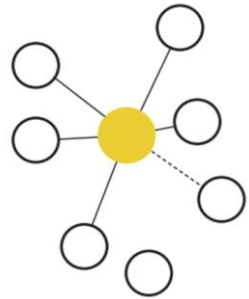

Co-lead

- shared

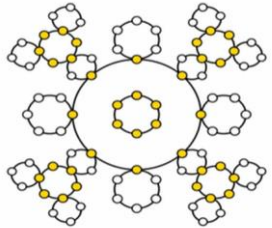

What kind of leadership do you use in your work today?

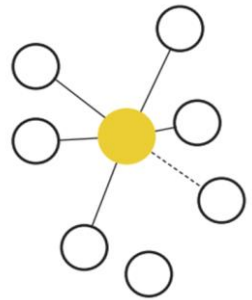

Individual
leadership

Collective
leadership

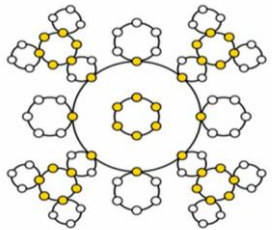

Individual
leadership

Collective
leadership

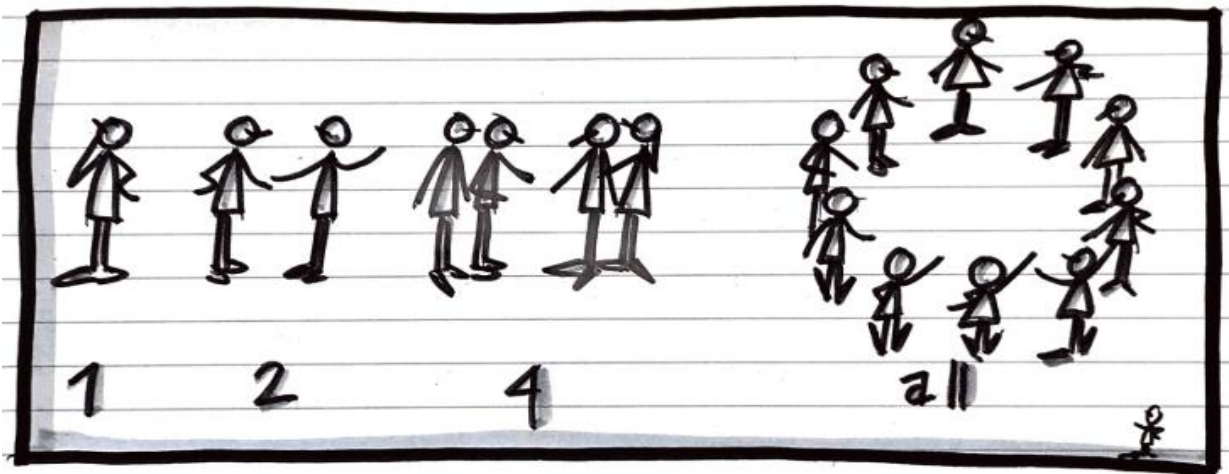

And prefer to use in the future?

How do we make leadership happen?

What processes, activities and actions do leaders need to do in order for coproduction to occur?

- ❑ Where do you see leadership happen? (processes and activities)
- ❑ Do you know it when you see it?

Processes and activities of co-production

- ❑ **Initiating** co-production
- ❑ **Training** and development for emerging leaders
- ❑ **Supporting** through facilitating, driving and championing co-production
- ❑ **Building trusting relationships** and commitment
- ❑ **Communicating**, dialogue and dealing with conflict
- ❑ **Networking** as mediating, bridging and boundary spanning
- ❑ **Orchestrating** and meta-co-production
- ❑ **Implementing** the outputs of co-production

4 questions, rate from 1 – 5

1= strongly disagree and 5= strongly agree

- ✓ I have gained more knowledge about the importance of leadership to co-produce better quality in health and social care
- ✓ I feel more energized to take on the leadership challenge
- ✓ The workshop was well organized
- ✓ My voice was heard during the workshop

RESOURCES

- ✓ The liberating structure 1-2-4-all
- ✓ Book
- ✓ App
- ✓ Slide deck of PowerPoints
- ✓ Swedish film at LearnOvation webpage
- ✓ Nätverket – Medskapande ledarskap
